

**Amendments to the Specification:**

Please replace the Specification with the enclosed "clean" copy of a Substitute Specification. In addition to this "clean" copy, also enclosed is the Substitute  
5 Specification with markings showing all the changes relative to the immediate prior version of the specification of record. These changes correct various minor grammatical and typographical errors. No new matter has been added to the application with this amendment.

10 Please replace the Abstract of the Disclosure with the following rewritten Abstract of the Disclosure:

**ABSTRACT OF THE DISCLOSURE**

15 A method of searching for persons is provided, wherein participants can search for persons who have given the most similar answers or opposite answers in the process of answering several questionnaires using a system wherein participants are able to answer several  
questionnaires using terminals widely distributed among general public as convenient  
tools such as portable phone, personal computer, etc., and communicate with each other at  
20 their request. The method includes steps wherein participants connect their terminals with a server, each participant inputs his personal information, the server provides a questionnaire that has been previously prepared to each participant, the participants answer the questionnaire, and the server provides introductory information produced based on the personal information between the participant and the other participants who have given the  
25 same or a similar answer and/or the other participants who have given an opposite answer.
